

Introduction to RS Audit

Engaging Audit Service
for your survey project

WHY YOU NEED AUDIT

Quality data lights the path in your decision-making journey

Public sector agencies need to collect **reliable** and **accurate data** to confidently inform policy-making decisions

- To instil public trust and confidence in data authenticity and subsequent analysis
- Must ensure the data collection process is not compromised

Audit helps by providing an **independent** and **holistic** view of the entire research process

RS AUDIT – WHO ARE WE

Set up specifically as a non-profit organization to ensure data quality

Provide the skill set required to support public sector agencies in auditing their large-scale surveys to ensure robustness of the data collected

Maintain **neutrality** in providing objective perspective on performance metrics and practices of vendors

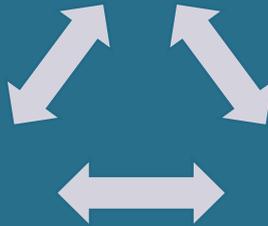

Identify and alert operational or quality lapses so that early intervention can take place and ultimately **ensuring good data quality** captured

3-PARTY

PUBLIC SECTOR AGENCY

Sets project requirements; Vendor Management; Final Decision maker on acceptable standards

RS AUDIT

Provides independent 3rd party review to ensure data quality

VENDOR

Fulfil terms of contract with public sector agency

RS AUDIT DELIVERABLES

- 1 **Assessment at various milestones of the project**
- 2 **Key interim updates**
- 3 **Final audit report**
